

The Reeves Family

Missionaries to Greece

New Year greetings, dear brothers and sisters in Christ!

As we begin 2023 and reflect on the last year of deputation, God's provision and sustenance, not only financially but also spiritually, is clearly intentional and miraculous! And we know that **you** are the vessels God has used to bless and keep us. As we have journeyed down the avenues of deputation, from small to big buildings, from cold to warm weather culture, from South to North and across the border into Canada, from the East Coast down to the Gulf Coast, from groups rich with elders to those bursting with babies, we have discovered that our richly diverse and precious church family is God-given, and we are thankful for **you**!

Our return to the field is drawing close as we are on the brink of finishing deputation. Our budget lacks just a few more church-driven PIMs, after which we can apply for our visas and prepare for our departure. If you have delayed giving to your pledged PIM or project until our return to the field, now is a great time to start since we are so close to finishing! This way, we will know the actual status of our pledged support as we draw things to a close.

We are truly grateful and humbled by each individual's and each collective church's sacrificial giving. Our family prays together on a regular basis that God will in turn bless you, keep you, and continue to provide for you financially, spiritually, and physically!
